

1:07 Number patterns

Calculator Challenge

Enter this calculator sentence into a calculator.

Continue to press **=** and record the answers.

Clear the calculator and enter the following:

Continue to press **=** and record the answers.

Discuss the number patterns that you recorded.

That is called a constant function.

1 Use words to describe each number pattern.

2 Complete each number pattern.

3 Write the tenth term in each number pattern.

a 4, 8, 12, 16,

b 36, 46, 56, 66,

c 12, 16, 20, 24,

d 9, 18, 27, 36,

e $3\frac{1}{2}$, 4, $4\frac{1}{2}$, 5,

f $2\frac{1}{4}$, $2\frac{2}{4}$, $2\frac{3}{4}$, 3,

The patterns overlap.

Activity

- Count by threes and circle each number counted.
- Count by sixes and put a cross on each number.
- Count by nines and colour each number.
- Discuss the patterns formed by circles, crosses and colour.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
